PROFESSIONAL SUMMARY

I am a dedicated software engineering student graduated from the **Institute of Java and Software Engineering (IJSE)**, passionate about developing innovative solutions. I completed my internship at **Webmotech (PVT) Ltd** as a Laravel backend developer, gaining hands-on experience in backend development. I am currently seeking an **Associate Software Engineer** position to enhance my skills, stay updated with technologies, and contribute effectively to a team.

PROFESSIONAL SKILLS

- **Programming Languages** - Java | PHP | JavaScript | TypeScript
- **Scripting Languages** - HTML | CSS
- **Frameworks & Libraries** - Spring Boot | Laravel | React | Node.js | Express.js
- **Databases** - MySQL | PostgreSQL | MongoDB
- **DB Management Tools** - MySQL Workbench | pgAdmin 4 | MongoDB Compass
- **Architectures** - Monolithic | MVC | Layered | Microservices
- **Tools** - Figma | Postman | XAMPP | IntelliJ | PHPStorm | VSCode
- **Version Control** - Git | GitHub

SOFT SKILLS

- Active Listening
- Problem Solving
- Leadership Abilities
- Collaborative Team Player
- Strong Communication Skills

EXPERIENCES

- **Webmotech (PVT) Ltd** [2024 Sep - 2025 Feb]
Intern Software Engineer (Backend Developer - Laravel)

Developed RESTful APIs, optimized database queries, and collaborated with teams to deliver efficient backend solutions.

Projects

- Project Management Tool
 - CGL Plantation Backend
 - Employees Management System
-

PROJECTS

- **Project Management Tool** [2025 March]

- Backend - Laravel
- Database - PostgreSQL
- Security - Laravel Passport

Description: A backend application using Laravel with PostgreSQL for database management and Laravel Passport for secure user authentication. Manages projects, tasks, and users efficiently, ensuring smooth project workflows.

- **Laptop Hive - ECommerce** [2025 March]

- Frontend - React.js
- Backend - Node.js | Express.js
- Database - Mongo DB
- Security - JWT

Description: A web application using the MERN stack with JWT authentication for secure user access. Includes an admin panel to manage products, orders, and customers efficiently while providing a seamless shopping experience.

- **Shoe Shop Management System** [2024 April]

- Frontend - HTML | CSS | JS
- Backend - Spring Boot | Spring Data JPA
- Database - MySQL
- Security - JWT

Description: A web application using Spring Boot with JWT authentication for secure user access. Includes an admin panel to manage inventory, orders, and customers efficiently while displaying the most sold items and their quantities to ensure smooth operations.
